

IN THE CLAIMS:

The text of all pending claims, (including withdrawn claims) is set forth below. Cancelled and not entered claims are indicated with claim number and status only. The claims as listed below show added text with underlining and deleted text with ~~strikethrough~~. The status of each claim is indicated with one of (original), (currently amended), (cancelled), (withdrawn), (new), (previously presented), or (not entered).

Please CANCEL claims 1-12 and 14-16 and AMEND claim 13 in accordance with the following:

1. - 12. (CANCELLED)

13. (CURRENTLY AMENDED) A ~~The data transmission device according to claim 12~~ comprising:

a plurality of switches in which different testing mode is assigned to each of said switches;
a device controller connected to said switches, and controls an operation of said data transmission device; and

an external medium control unit, controlled by said device controller, and reading information recorded within an external recording medium;

wherein when one of said switches is selected, said device controller controls said external medium control unit to read operating condition information corresponding to said selected switch from said recording medium, sets up read operating conditions to components of said data transmission device, and submits a test in a testing mode corresponding to said selected switch, wherein:

said external medium control unit detects a presence of said external recording medium;
and

said device controller controls said external medium controller to read operating conditions recorded in said recording medium when said recording medium is present, and reads operating conditions recorded inside of said data transmission device when said recording medium is not present.

14. - 16. (CANCELLED)
